

## Percussion Supplies MJHS

We encourage you to try to buy from PM Music if possible so they can help you purchase the correct materials. Never hesitate to send a quick email to reach out and ask if what you are about to purchase is the right accessory for your student.

- **Percussionists only have to buy their own snare sticks.**
- *Marimba and xylophone mallets are on this document if students ever want to purchase their own. Generally, it is a good idea to have at least 3 pairs of mallets for each instrument. "Medium" to start and then a Medium-soft and Medium-hard. (Soft-Medium-Hard).*
